Bob, here's my contact information. I just left you a voicemail regarding the rural private water well survey we were discussing the other day. Give me a call to clarify when you get chance, thanks.

Hi Mark.

I just spoke with Justin Deming and he said you are the main POC for Seneca, so I figured I'd touch base with you real quick. I don't have any more time to talk today.

Info about me and my role is below. I hope to speak with you at some point, not sure when as I'm up to my eyeballs with work.

Regards for now.

Bob

Hi Justin. My name is Bob Morse and I am the Remedial Project Manager (RPM) for EPA for Seneca in the Superfund Program.

I got your contact info from Dan D'Agostino in EPA's Water Division. I was cc'd on some emails today from you and Lloyd Wilson to Dan.

I would like to speak with you about Seneca and PFAS when it's convenient for you, preferably the sooner the better, as I am currently in the middle of PFAS at Seneca in a major way.

It's mainly about the private and public drinking water well work that DOH has done, and what if anything more I can ask the Army to do to fully address the PFAS drinking water issue.

My contact info is below. I'll probably try your phone in a few minutes. Thanks.

Bob
